

SIRS DISCOVERER User Guide

SIRS Discoverer is an interactive tool designed for elementary and middle school students. Articles and graphics are chosen by their educational content, interest, and level of readability.

Search Tips: Explains and illustrates how to use the many features.

Searches can be done with Subject Headings, Keywords, Advanced Keyword, or browsing the Subject Tree.

Results list can be sorted by type of media, relevance, date of publication, or reading level.

3. [Gorillas](#)
Otterwise; Spring 1993; Lexile Score: 1090; 5K.

Results citations give the source and summary, color-coded book revealing reading level, title of article, subjects linked to other related articles, available pictures, article type, publisher, date, lexile score, and size for determining download time.
