

MCPOLIN OFFICE UPDATES
WEDNESDAY, SEPTEMBER 18, 2019

Dear caregivers and parents,

Thanks to everyone for all the hard work to keep McPolin the “best elementary school IN Park City.” Appreciations for everyone’s efforts to stay informed by reading these “Notes,” the grade level “Weekly Notes”, as well as the website and Moosemail. Not everyone’s schedules are school “friendly.” Being informed and supporting from home more than works. Let us know how we can help support your family.

One-way to stay informed and an important activity here at school is the MPES PTO “Room Parent” program. We had the start-of-year organizational activity just yesterday. Thank you to everyone who participated and helped, especially all the parents and teachers and of course Maika and Mandy who helped organize the meeting. The “Room Parents” help with classroom and school-wide celebrations, classroom projects, and COMMUNICATION. YES, everyone should get to know his or her grade level room parents. They always need help to support the classrooms and are well informed about school - another way to stay informed!

A “shout out” to our “Green Team” led by Lauren Strachan. The Green Team goes through the school on Thurs. mornings collecting all the recyclable material. The Green Team consists of parent volunteers and students. The activity starts around 8:00am on Thursday mornings, and they are usually done by 8:30am or so. AND ... the more hands the quicker things get done. This is another way to get involved, learn more about the school, and best of all model for your children the importance of supporting schools and our community. If you have any interest, please contact the front office and we will get you involved! Just another way we at McPolin R.O.C.K.
