

Dear parents, teachers, neighbors, and members of our community, due to our current situation we are going through a difficult time and many people need our help. Presently many members of our community have lost their jobs, we have many single parents caring for the elderly and children, some of who are very ill and need medical attention. Some cannot pay for needed medicines, housing or basic needs. As we all know, the residents of Park City have always stepped up to the plate. If possible, we are encouraging you to donate any amount you can give. Below are the organizations that are working directly with the families in crisis.

- **Christian Center:** The mission of CCPC is to meet people at their point of need. If you prefer to donate via check, Christian Center mailing address is as follows: Christian Center of Park City PO Box 683480 Park City, UT 84060 Please indicate your preference, if any, in terms of which of our two campus locations should receive this donation. No designation will be applied as needed to either campus location. Donations being made to any preferred Fund designation at the moment will essentially support efforts needed for COVID-19. Basic Needs Assistance and Pantry designations are encouraged. General Program Support designations will be applied where needed most.

· **Park City Community Foundation:** the Community Response Fund helps strengthen our community and respond immediately to crisis situations such as the current novel coronavirus (COVID-19). The Community Response Fund is offering flexible resources to organizations in our area working with communities who are disproportionately impacted by coronavirus and the economic consequences of this outbreak. The fund is supporting health and human services nonprofits in greater Park City that are handling cases related to the

impact of COVID-19. Targeted operating grants fund organizations that have deep roots in the community and strong experience working with residents without health insurance and/or access to sick days, people with limited English language proficiency, healthcare and gig economy workers, and communities of color, among others. · ONLINE DONATIONS HERE:
